Professional Summary

- Master of Business Analytics candidate at La Trobe University.
- **Microsoft Certified: Power BI Data Analyst Associate**.
- Telecommunications store-channel leadership and stakeholder management experience.
- Developed Power BI dashboards for directors and C-level executives; analysed sales performance, sales quality and competitor pricing.
- Seeking a business analytics, reporting or business analyst industry placement in Semester 1, 2027.

Core Skills

Analytics and reporting: Power BI dashboards, sales performance analysis, KPI monitoring, sales quality reporting, competitor pricing analysis and management reporting.

Business tools: Microsoft Excel, Power BI, SPSS and PowerPoint.

Academic technical skills: Azure Data Factory, Azure SQL and Databricks through cloud analytics coursework; foundational SQL and Python.

Business delivery: Executive reporting, stakeholder coordination, presentations, team leadership, training, budget monitoring and operational planning.

Professional Experience

Head of Division – Store Channel 2021–2024

Telecom International Myanmar (Mytel) | Myanmar

- Developed Power BI dashboards for department and branch directors and C-level executives to monitor sales performance, SIM registrations and activations, and sales quality across nationwide branches.
- Benchmarked selling prices and discounts across wholesale and DTR channels against competitors' market prices to support senior management decisions on pricing and discount strategies.
- Analysed store-channel sales data and KPIs to evaluate sales initiatives, identify trends and recommend actions to senior management.
- Set sales targets and monitored store and team performance against revenue and customer service objectives; reported progress, operational challenges and recommended actions.
- Coordinated store managers, sales teams, franchisees and distributors, providing training and performance feedback to support channel operations.
- Managed division budgets, cost controls and resource allocation to support operational efficiency and profitability objectives.

Store Channel Coordinator 2019–2021

Telecom International Myanmar (Mytel) | Myanmar

- Monitored sales data, customer feedback and competitor activity; prepared reports on store performance and opportunities for improvement.
- Supported store managers and channel partners through product training, promotional coordination and operational guidance.
- Coordinated stock availability, customer enquiries and daily store operations in line with company policies and service standards.
